Maija DiSalvo  
Elise Blocker  
Natalie Lyon  
Patrick Cotter  
Megan Flory

**MSB Bike and Ped Plan Steering Committee Meeting**

**Monday, February 27<sup>th</sup>, 2022**  
**2:30 pm – 3:30 pm**

**Meeting Minutes**

**I. Committee and Staff Introductions**

**II. New Business**

1. Overview of Draft Bike and Pedestrian Plan Edits to date

RESPEC staff provided an overview of the draft plan with edits from the Steering Committee.

a. Recreational Trail Connections

The map and implementation table were updated to provide trail connections to Lazy Mountain, Settler's Bay Recreation area, and an additional connection to Crevasse Moraine. Eastern access to Crevasse Moraine was investigated and at this point has been determined to not be feasible due to topography and lack of space for additional parking.

b. Trail to Sutton

A parallel trail was presented to the Sutton that runs along the Railroad right-of-way. Steering Committee comments recommended ending the pathway at Moose Creek to allow for connections along the highway and recommended against further extension due to erosion concerns.

2. Schedule the Next Meeting

The next Steering Committee will not be scheduled until after the public comment period which is planned to begin in mid-March.

**III. Committee Comments**

**IV. Adjournment**

The meeting adjourned at 3:07pm.
